Imaging 411 and Inspired VAR's Join the AIIM ECM Seminar Roadshow

LONG ISLAND, N.Y., August 17—Imaging 411, the North American distributor for the new Hitachi HT-4139 production scanner, along with their national network of resellers, called the “Inspired VAR’s”, announced plans to exhibit at the AIIM ECM Seminar Roadshows.

The AIIM ECM Seminars are one day free conferences sponsored by AIIM and industry vendors that are designed to provide end users with management strategies for their information assets.

The show dates and locations are as follows;

Date	Location	City State
Sep 14, 2010	Georgia World Congress Center	Atlanta, GA
Sep 28, 2010	The Westin Copley Place	Boston, MA
Sep 30, 2010	Hotel Pennsylvania	New York, NY
Oct 05, 2010	Ramada Mall of America	Minneapolis, MN
Oct 07, 2010	Hyatt Regency McCormick Place	Chicago, IL
Oct 13, 2010	Capital Hilton	Washington, DC

Imaging 411 and members of their “Inspired VAR Program” will be exhibiting the new HT-4139 scanner from Hitachi, a 150 ppm production scanner with features unique for products in this price range. The HT-4139 includes a second output tray that allows out-sorting of patch code sheets, separation sheets or exception documents based on size (such as checks). The scanner will also be the first scanner to feature the ultra-high bandwidth of USB 3.0 as well as triple stream output.

About Imaging 411

Imaging 411 is the national distributor and service provider for the Hitachi scanners and also provides national onsite service for many popular document scanners including Kodak, Bell & Howell and Fujitsu. Check the website for information about service programs as well as the Hitachi scanner. www.Imaging411.com or <http://www.hitachiscanners.com>
